Skin Treatments

Crystal Clear Microdermabrasion Facial

Crystal Clear - Advanced micro epidermal skin technology

Crystal Clear Microdermabrasion takes years off your complexion by gently exfoliating the outer layers of skin. Because it's a safe and controlled method of skin resurfacing, the treatment can be used to solve a wide range of skin concerns on both the face, body and feet.

Microdermabrasion provides immediate and visible results for ageing skin, lines and wrinkles, open pores, blackheads, pigmentation, blemish scars, acne scars, stretch marks and so much more. You'll see the difference after just one treatment, however for more problematic skin a course of treatments may be required.

With regular treatments, the skin increases its collagen and elastin formation, giving you a naturally firmer and rejuvenated appearance. Building on this, the gentle vacuum action provides lymphatic drainage.

Course of 4 x 30 minute sessions	£145.00
Course of 10 x 30 minute sessions	£380.00
